When you really want your documents to look good – to speak more forcefully and more eloquently for you – you need the Apple™ Font Pack for Macintosh™. It opens up the world of type to give you quick, convenient access to 43 exceptional TrueType™ fonts.
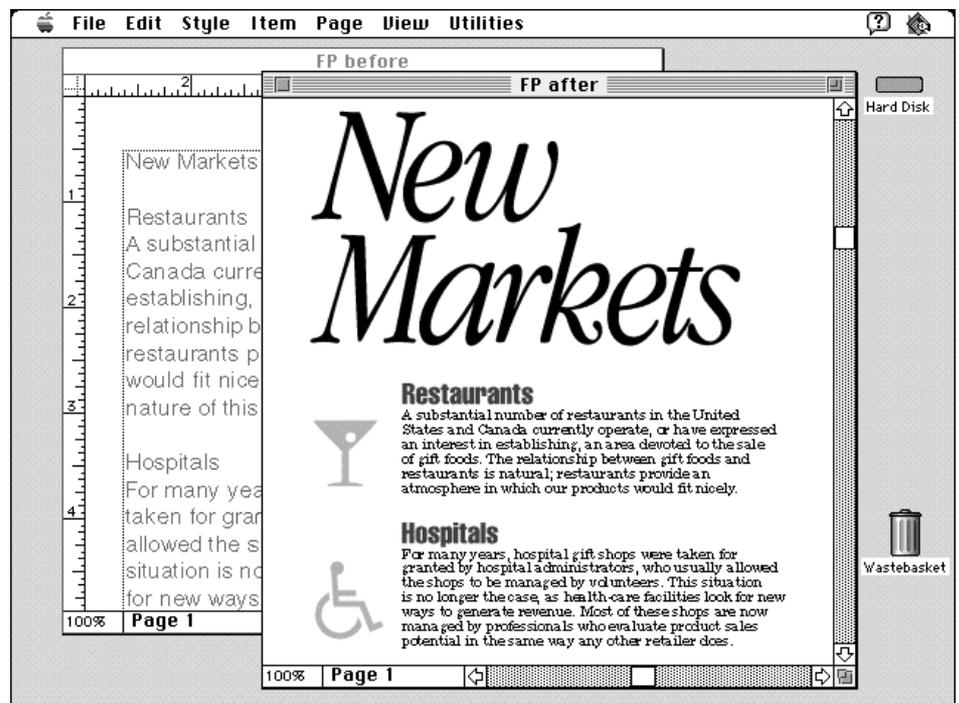

To assemble this distinctive collection of typefaces, Apple has worked with the world's leading type foundries. The expertly chosen selection of font families gives you hundreds of ways to increase the impact of your printed work, whether you're preparing a memo, spreadsheet, presentation, newsletter, report, brochure – even a fax.

The Apple Font Pack for Macintosh includes classic text fonts, headline and display fonts and symbol fonts, all in the Apple TrueType font format. So you're assured of great type at any size, both on screen and in print.

With the Apple Font Pack for Macintosh you can create tiny footnotes or bold headlines with equal clarity and precision, using your favourite software programs and printers.

Use attention getting Helvetica® Compressed, for example, to call out headings in a report … classic Delphian or elegant Old English® to add a stylish title to your document … Nadianne™ to bring the grace of calligraphy to an invitation or award … and Zeal™, the new Apple symbol font to highlight your most important points.

When combined with the fonts that come with Apple System 7 software, the Apple Font Pack for Macintosh gives you a total of 64 fonts – the entire Apple font library that's included with the Apple LaserWriter™ IIf, LaserWriter IIg and Personal LaserWriter NTR printers, and that sets the standard for fonts on personal computers.
