

Canyon Run

Truck Traffic Time!

The Ramp

his activity is probably the best of the lot. I love it. OK. Kill all the A-10's. Destroy all but one F-16. Follow it to the tank battle, then destroy it. Head to the little culdesac, and down to the commander's hacendia. See the ramp where the trucks jump over the ZSU-23/4's? Good. Position yourself for a good view of it, because this is something you won't want to miss.

s one goes over the ramp, give it one burst of cannonfire. If you got your timing and position right, it will flip over, and roll down the other side of the ramp. Cool, huh?

If you are lucky, it will stop skidding rather close to the ramp and turn over onto its side. There it will become a roadblock, and it will do one of two things. If it is very close to the ramp, the next truck will pum-mel into it. If it is a good distance away, the next truck will try to turn around it, skidding and sliding all the way. If it is very far out, the trucks will neatly line up all the way up the ramp, until one slides down and crashes.
