Union (radio button)
Mesh Density

Chapter 5–Utility Palettes

Libraries Palette, 123

- To make a Library item of a structure (group) which is a part of the current file (database)
- To import an existing ModelPro database as a Library
- To access the group structure of icons in the Libraries Palette:
- To place a Library item (file icon, or folder, or object) into the current working file:
- To “lock away” a Library item from changes to its original:
- To “lock away” a Library item of an imported file from changes to its original:

Statistics Palettes, 125

General Statistics, 125

- Show Rotation Point
- Rotation Point Location

Volume Statistics, 125

- Dry Volume
- Liquid Volume

Area Statistics, 125

- Surface Area
- Surface Volume

Status Line Palette, 126

- Prompt
- x, y, z, cursor location

Chapter 6–Groups Palette

The Group Palette, 127

Building and controlling the group structure in the Group palette, 129

Selecting objects and groups in the Group palette, 130

Naming an object or Group, 131

Creating a Group, 131

Creating a Folder, 132

Re-defining the hierarchy of objects and groups in the Group palette, 132

To assign an object or sub-group to a new group, 132

To “promote” an object one level, 133

Description of the Group Palette, 134

- Close Box
- Zoom Box
- Lock/Unlock

Chart View/List View, 136

- The Insertion Pointer

The Display Column, 137

- Command key
- Option key

Folder Arrow, 139

- Option key
- Shift key
