Shattered Steel™ Demo Installation

Some virus-protection programs (GateKeeper, SAM, Virex, etc.) may warn you about some of the operations performed by the installer. This is normal. You should always give the installer permission to perform the requested operation. You may find it easier to disable any virus-protection programs before running the installer.

Use the DRIVE button to select the disk where you would like to install Shattered Steel™. Click the INSTALL button to begin the installation. The installer will create a folder named "Shattered Steel™ Demo" to hold all the files installed.

Features

If you do not have the Apple Game Sprockets™ already installed, make sure you have it checkboxed!

Apple Game Sprockets.
Check this box to install the the Apple Game Sprockets (version 1.1): DrawSprocket, InputSprocket, and GoggleSprocket. These will be installed inside your Extensions folder within your System folder.
