This file contains helpful troubleshooting tips, last minute information, and the license agreement that the lawyers made us add. Click "Continue" when you have read and agreed to the terms of the license.

Installing

This installer should find your copy of Gridz and install into the same folder. The installer creates a new application called "Gridz 1.1 Beta" and adds some new data files.

Fixes & Changes

- appletalk and internet networking
- improved robot AI
- some speed improvements
- board size selection bug fixed
- memory related bug fixes

Networking

This version includes NetGridz. NetGridz can be played over the Internet or over an AppleTalk network. See the help screens for more information. Internet NetGridz requires Open Transport. We recommend version 1.1.2 or later.

Your Serial Number & The Gridz CD & NetGridz

The same serial number cannot be used on multiple machines in a network game. You can play against anyone with a normal serial number or anyone with a network serial number. 3 free network serial numbers can be requested by sending e-mail to "net@gridz.com" with your real serial number in the subject line.

We will soon have a way to purchase 4 additional network serial numbers on our web site.

You will need the CD when you install and enter the serial number. A network serial number does not allow single player play.
