## I'm Gonna Switch

I had to write to someone there at Apple. I'm fed up with Microsoft. Right now I have an IBM with Windows 95...I hate it! Microsoft is so terrible. All my friends are so pissed at there machines. I've had enough. I'm going to switch to a Mac A.S.A.P. I love this Web site. You can actually find things on it. Keep up the good work!
