

Montana

Lay out the entire deck, then discard the Aces leaving four empty spaces.

The goal is to get each row in suit and sequence, from 2 at the left to King at the right, with the final space in each row left empty.

Cards may be moved to empty spaces if the card to the left of the empty space is the same suit and one less in rank. 2's go in the far left spaces. Nothing may be moved to the right of a King or an empty space. You may redeal twice.
