

e want your eye balls and nothing else (apart from your attention)!

There are many reasons why you should visit our great web site at <http://www.1984-online.com>.

Here are just a few of them.

- **News** - Why not subscribe to our News mailing list from which you can receive all the week's latest news. If it's happening, we know about it. Unlike other big Mac mailing lists, we only give you the news that you want on a weekly basis.
- **Latest issue of the e-zine** - The latest issue of the e-zine is always online at our web site. If you are reading 1984 Apple OnLine from the magazine cover CDs, I can promise you that the latest issue will always be posted on the site first. This is because cover CDs are pressed a month in advance. If you would like to download the latest issue please link to <http://www.1984-online.com/downloads/>
- **A new award scheme** - New to 1984, we have decided to introduce an award scheme which brings the attention of worthwhile Macintosh related sites to our readers. Awards are given by our members who decide which sites they feel deserve a Gold, Silver or Bronze award every month. At the end of the year we offer a "Site of the Year" award. The 1984 awards can be found at <http://www.1984-online.com/awards/>
- **A MacMuser section** - This is a new section which has great online resources. It's like a site on its own and contains all the best stuff from the e-zine. It also has an ever growing list of Mac-user groups and much more. It has been referred to as a Mac Dictionary and should be visited at <http://www.1984-online.com/Mac/>

These are just a few things which are available. Why not load up your internet connection and take a look. If you do not have an internet connection you can purchase a copy of the site on floppy disk from me for a small (cost covering) charge. Details from (Paul Hughes, 1984 Apple

OnLine, 12 Golf View, Cardenden, Fife, KY5 0NW).

The above links can of course be visited through our main home page - enjoy.

Hope to see you surfing in on the next row of bandwidth. You can enjoy over 44mbs of Macness.

Please note that the next issue of the e-zine is released on the site around the 1st of the month.

Still don't know if you should visit the site? Then maybe you're questioning your existence.
