## PLUG-IN PACK(TM) EXTERNAL PACKAGE v1.1 READ ME

-----

This file contains last-minute product information and updates to the documentation. Please refer to the manual for installation instructions, troubleshooting and performance information.

## IMPORTANT!

-----

Before going any further, please read and accept the licensing terms which can be found in the folder "Plug-In Pack v1.1". Your use of this product indicates acceptance of the license.

## SERIAL NUMBERS

-----

This product requires a serial number to work. If a serial number is not used, then the product will work in demo mode. A serial number is provided by Foresight when you purchase the product.

## PURCHASING OR UPGRADING

-----

You can obtain serial numbers for Foresight products by contacting our sales department or one of our authorized resellers.

Tel (800) 701-9393 (U.S. and Canada)  
Tel (817) 731-4444 (Int'l)  
Fax (817) 731-9304  
<<http://www.fsti.com/sales/>>  
<<mailto:sales@fsti.com>>

## REGISTRATION

-----

Please complete your registration today using the PDF form provided or the

on-line registration available at <<http://www.fsti.com/sales/register.html>>. Registering your Foresight product entitles you to free technical support, special price offers and promotions, and immediate announcements regarding your product.

## DOCUMENTATION

-----

The manual is in Adobe Acrobat PDF format, and requires Acrobat Reader v3. The Acrobat Reader application is included on the Foresight CD-ROM, the ACI Products CD-ROM, and is also available for free download from the Adobe Web site (<http://www.adobe.com/>).

## COMPATIBILITY

-----

This product is fully compatible with 4D v6, 4D Server v6, 4D v3, 4D Server v1 and 4D Compiler.

## CURRENT VERSION

-----

If at any time you want to know what the latest version of this or of any of Foresight's products is, go to our Web server at <<http://www.fsti.com/support/current.html>>.

## SUPPORT

-----

Complimentary person-to-person support is available 8:30am-5:30pm Central Time, for your registered Foresight products. In most cases, email allows us to provide the most complete and efficient support. Don't forget to check TechLib where you can find answers to your technical questions 24 hours a day. 7 days a week.

## DEMO

-----

The demo which is included lets you experiment with the product's capabilities. The demo is provided non-compiled, so that you can access the Design environment to see the methods and layouts used. You may compile

the demo using 4D Compiler to experience the best possible performance.

-----  
PLUG-IN PACK v1.1 - 5/7/97  
-----

## SERIALIZATION

-----

Plug-In Pack requires a serial number to "unlock" the product making it a full working version. Call the PlugIn\_Init command (see the manual for syntax) in the Startup/Debut procedure. Without the serial number, Plug-In Pack will operate in demonstration mode which is fully functional for 15 minutes in the Runtime/User environment.

## PROBLEMS FIXED IN v1.1

-----

1. Enhanced internal engine
2. Minor bug fixes
3. NP\_Plugin function has been modified. If the Wizard is on, you just have to pass the document name and the plug-in will be loaded automatically.
