

# Additional Features

In Blobs, there are a few extra-special super-duper secret features that you might want to know about. You will know that one is available to you when you hear "Da Cow". (they are only available after the time has run out)

**ORMAL BOMB:** These little bundles of joy will destroy one square on the board.

**UPER BOMB:** These not so little bundles are even more joy-filled; each one clears away nine squares!!

**ORIZONAL BOMB:** These things destroy all the Blobs in one horizontal row.

**ERTICAL BOMB:** You guessed it...These destroy all the Blobs in one vertical column.

**APPER:** Click on a string of Blobs with this and the string will disappear leaving behind the score and the Blob counter units.

Not all of the specials are available on the early levels; the further you get, the more specials you get!
