Mac OS Internet Customer Help Sheet No.32
"File Installation List For Internet Explorer 3.01a"

This document is a complete listing of the files installed by Internet Explorer 3.01a. It is based on Microsoft's Knowledge Base article #168516. The listing in this article has the following format:

```
Folder name and location (default)
   File name                        [Component] {Processor} Short comment
       Long comment
```

[Component] is each option available in the installer's "Custom Install" list. Components and their abbreviations in this article are:

```
    IE        - Internet Explorer
    Java
    AX        - ActiveX
    JScript
    Fonts     - Web Fonts
    IMN       - Internet Mail and News
    ICW       - Internet Connection Wizard
    PWS       - Personal Web Server
    IC        - Internet Config
    Drag and Drop
    Thread Manager
```

{Processor} is the computer's processor type. If not specified, the file is installed regardless of processor type. Processors and their abbreviations in this document are:

```
    68K - Motorola 68020, 68030 and 68040 processors
    PPC - Motorola PowerPC processors
```

NOTE: Internet Config is not installed in Apple Macintosh System Software version 8.0 (Mac OS 8) by the Internet Explorer Installer program. You must install Internet Access from the OS 8 CD-ROM to install Internet Config.

NOTE: **MIA**="Microsoft Internet Applications" folder.

The File List
Internet Config 1.3
```
      Not installed if Internet Config 1.3 present
      Not installed if installing IE from Mac OS 8.0 CD
   IC_FAQ.html                     [IC]
