I am an avid Cherry Coke drinker. I get too busy. When I'm not burning CDs, working on Apple Wizards, writing reviews for MacAddict, or otherwise using my G3, I'm usually playing some sport or another or designing a website for someone. I've been a Apple fan since I first played Oregon Trail on my family's Apple IIe. Too bad little Billy Gates always died by the time we got to Blue Ridge Run...

I enjoy working on Apple Wizards because I have a serious distaste for free time and society in general.

I am a 21-year-old graduate of the University of Florida who is sick and tired of the inconsistency of the Gator Football program. But hey, at least I'm not a Seminole! When I'm not webmastering in front of my souped-up Performa 6400 or fighting over the iMac with my boyfriend, I can be found rehearsing and choreographing for dance companies or working at a local, regional ISP. Apple: If you are looking for anyone to choreograph a dance piece for next year's "Apple Road Show," I'm available!

My work at Apple Wizards is dedicated to the memory of my Apple IIe and beloved Macintosh Classic.

I am an 18-year-old college student and majoring in Computer Science. I am an experienced consultant with a CNA license. I have used almost every operating System ever made, and I always keep coming back to the Mac OS.

The mind is the most imaginative, creative, and powerful thing in the universe. Why waste your energy using any other tool besides the Mac OS, the best tool to harness that energy?

Columnists and General Staff

An Apple/Mac lover since 1986 (remember Lemonade Stand?), I am a web designer, Mac consultant, and freelance humorist and just recently packed my rear off to college to study computer engineering. I am also an accomplished French hornist, and I love to ski. I am also very much in love with my girlfriend, who is wonderful (I hope she reads this).

I write for Apple Wizards because I just can't say no to Erik (he's so cute!). I hope you all enjoy my columns, otherwise I will be deeply emotionally wounded and go sulk.

John B. Crane — From Another Perspective

jbcrane@applewizards.net

I am a 3D illustrator and animator in Santa Fe, New Mexico. I've been involved in art most of my life and in "graphic" art as a career for the past 15. I'm a staunch and loyal advocate of the Mac and love what I do for a living - creating stuff on my Macs. When I'm not working I'm busy being a husband and a daddy to our new little boy, Matthew.

The more I learn, the more I realize what I don't know.

Craig Cox — Apple Wizards Evangelism

I am a logistics information systems manager for the US Government. When I'm not battling the takeover of the government by Bill Gates, I'm playing with my daughters, swimming, reading, or trying to keep the "money pit" from collapsing in around us.

Apple Wizards looked like a cool bunch of folks with the same general philosophy of combating banality and enjoying the finer things in life — like Macs.

I have been involved in the graphic arts since 1972, primarily as a photographer and offset printer. Seven years ago, I escaped with my wife and two sons from Trenton, New Jersey to the rural countryside of upstate New York. The most important thing about computing is the spread of knowledge and the potential for individual empowerment. Today's desktop has become every man's printing press.

Life has become a never-ending struggle to learn faster than my sons.

Born in the greatest decade known to man (the 1980's - what else!), I have progressed through various levels of schooling to become a high school senior (we rule the school!). R.E.M. is the band he grew up with, though other favorites include U2 and 10,000 Maniacs. I enjoy spending time learning to play the guitar and working in ice cream parlors.

Apple Wizards to me has a very special place. You know, that place on your back that you can't quite

reach no matter how hard you try...

Jeff Frey — HTML ToolBox

The one thing every "well-rounded" college student needs is a foreign language. Well, I can answer with the standard "Uh, yeah, I took German for two years," or, I can answer by saying "I'm proficient in C, C++, Pascal, PowerPlant, Java, HTML, and AppleScript." Usually that gives me the same affect as saying "Ich habe Deutsch studiert." And of course, I'm devoted to the Macintosh...the computing choice of the NeXT (oops, did I hit the shift key too many times?) generation.

My columns for Apple Wizards are meant to encourage experimentation and dabbling in HTML, since everyone knows that only the MacOS encourages those same qualities in every user.

Brent Hecht — Medicine Man

I am rather new at this writing stuff. I currently author articles for MacOS Daily and 32 Bits Online when not hard at work for Apple Wizards. Contact me at the email address above to ask a question, comment or just to talk to someone!

Brian Kelley — 'Warehouse, Features

brian@applewizards.net

I am the Apple Wizards shareware guy. In addition to my Apple Wizards work, I write technocentric fiction and non-fiction. I am also starting to learn programming and you may some day see my own shareware app in 'Warehouse! I live and work in upstate NY with my wife, Gini, and our Performa 6205 and iMac.

Writing the Apple Wizards shareware column is a great way to justify all the downloading I'd be doing anyway!

Marc Messer — Mac Junkie, Game Reviews

macjunkie@applewizards.net

I'm a 22-year-old-senior at the University of Florida studying Computer Science through the college of business. When I'm not on my 6500, Gustav, I'm doing such useless time consuming things like sleeping, eating, and occasionally going to class. I'm forever struggling with java and nothing ever compiles. Other than that, I like to watch UF sports and listen to hardcore, ska, and hardcore ska music.

I love to play with PCs! I especially love to play with the autoexec.bat. But for some reason, no one will let a Mac user play with their PC.

Morgan Williams — Copy Editor, Sometimes Writer :-)

A philosophy major at Southern "Harvard" University, I strongly believe that the counter-intuitive behavior of Windows is a direct affront to our very rational nature — and thus, at a very primitive level, we naturally find it insulting. I am new to Apple Wizards, which is quite cool, and hope either to do tech writing or design levels for Bungie Software. Also, if I don't kick your butt at Myth, it'll be darn close ;)

These days, money talks, and information is subject to change.
