Flips and Rotates thanks to
John Montbriand

Alerts (System 7) thanks to
Stephen Wardlaw

Contextual Menus
CCMArea
because I wrote it, and it's really cool anyway

Tool Tips based on
LHintAttachment by Eric Cloninger

Development Environment
Metrowerks CodeWarrior Pro 4
because PowerPlant won me over

E-Mail Correspondence done with
Cyberdog
because it's not over until we say it's over

Conceptual Designs done with
ClarisWorks
becasue that paint module is actually pretty good

Web Pages created using
Adobe PageMill
because the student price was lowest

Fancy Logo created using
Adobe Photoshop

because I finally have a computer that can run it decently

Logo Font
Crush No. 49 - from dincType
www.girlswhowearglasses.com
because it was free

Good Source of Icons
The Icon Factory
www.iconfactory.com
because they're better at making icons than I am

This program is dedicated to all you people who thought I'd never finish it.
