

Purchasing UFO

The unregistered version of UFO will only allow you to manipulate the first five items in the package list. Purchasing a license will provide you with a registration code which will disable this limitation and enable all features.

UFO 2.0 is a free upgrade for registered UFO 1.0 users. You do not need to purchase another license if you have already purchased a license for UFO 1.0.

A single-user license for UFO costs \$15.00. This license entitles one individual to use UFO on one computer. You can purchase a license by either of the following methods:

Cash, Check, Money Order (US Funds):

If you would like to pay by cash, check, or money order (in US funds), make your check or money order payable to Timothy M. Brown, and send it to:

Timothy M. Brown
137 North Avenue
Syracuse, NY 13206-2830

Be sure to include your name, address, email address, the name of the program(s) that you are registering, and the number of copies of each.

Credit Card (WWW):

If you would like to pay by credit card on the web, you can purchase a license by visiting our secure Kagi* order page at:

<https://order.kagi.com/?GB>

Turn around time for orders placed by this method is usually less than 24 hours.

*Kagi is a well established order processing service which handles payments for many software vendors who would otherwise be unable to accept payment by credit card.
