

Miscellanea

Unreal File Organizer has been tested with Unreal 2.20b3 on a G3/266 under Mac OS 8.5.1. Use it with care, and at your own risk. Be sure to backup and important files (especially your "Unreal.ini" file). The author will not be responsible for any damage or loss of data which occurs from the use of this software.

System Requirements:

UFO should run any any system capable of running Unreal and requires QuickTime 3 or higher for the display of preview images.
