

Other Bliss Products

Bliss Paint™

You can also add painting to Bliss Saver by creating them yourself in Bliss Paint. In Bliss Paint, you have control over all the parameters that make up an animated Bliss Painting, such as scribblers, distributors, and color synthesizer settings. To learn more about Bliss Paint, see [Creating Animations with Bliss Paint](#). \$149.95.

Waves of Bliss™

Waves of Bliss is a collection of plug-in modules for Bliss Paint and Bliss Saver. More than 50 new scribblers and distributors provide completely new dynamic animation possibilities. Waves of Bliss includes modules designed for MIDI and sound input interactivity, making this package a must for anyone using Bliss Paint in live performance. MIDI and sound can be used to control aspects such as size, motion, density and rhythm, and new 2-D and 3-D scribblers fly through space with direction from your mouse! \$59.95.

Space Garden Meditations™

This is a large collection of plant and geometry animations and plug-in Scribblers and Distributors for use with the Bliss Paint animation authoring software or with the Bliss Saver screen saver. Space Garden Meditations also includes the Bliss Saver screen saver engine, so it can be used as a standalone package. \$49.95.

Geometric Bliss™

Geometric Bliss is a collection of plug-in painting modules—a dazzling kaleidoscope of interlocking geometric shapes that animate on the Macintosh screen.

Used with Bliss Saver and Bliss Paint, animated color flows through the shapes with the trademark aesthetic of the Bliss family. Interlocking weaving patterns in hexagons and diamonds are the main types of patterns used, with several variations of repetition, reflection, and rotation.

Included are 11 Scribbler modules that paint shapes in hexagon and diamond tiling patterns. Also included are four Distributor modules that can be used to place other shapes in hexagonal or diamond arrangements. \$39.95.

Bliss Gallery™

If you would like to add more animations to your Bliss Saver software, the easiest way is to purchase Imaja's Bliss Gallery. Bliss Gallery is a large collection of elaborate, long-playing paintings for use in Bliss Saver. Each painting evolves over a minimum of 15 minutes into an image of ever-increasing complexity, yet is different every time. With Bliss Gallery, you can also use your own PICT files for logo and fine art animation. Bliss Gallery includes a generous set of paintings specifically designed for 24 bit color and black-and-white monitors, too! Simply drop the Bliss Gallery paintings into your Bliss Paintings folder and they'll be used in your Bliss Saver screen saver. \$29.95.
