- E-DELIVERY !! You can download the program immediately from our [www.pgmusic.com](http://www.pgmusic.com) web page, using e-delivery paid for by credit card (VISA, MC or AmEx).

- Band-in-a-Box Pro is \$88 USD. This includes the program + styles disks 0-3

- Band-in-a-Box MEGAPAK is \$249 USD (this is the pro version + styles disks 1-16, and soloist disks 1-8)

- Add on styles disks, and soloist disks are available.

- This demo of the Band-in-a-Box program allows you to enter and playback songs.

Some features are disabled in the demo version (save of songs, MIDI files etc., notation and auto-soloing).

- Band-in-a-Box is an auto-accompaniment music (MIDI) program. You type in the chords to a song, using standard chord symbols like C or Fm7, pick a style (like jazz swing) and then press PLAY. Band-in-a-Box automatically generates a 3-5 part arrangement of bass, drums, piano, guitar and strings, and plays it back through the speakers on your Mac using QuickTime 2.5 (or if you have a MIDI system, it will send the information to your MIDI module using a direct MIDI driver or OMS).
