

These quizzes are very difficult. Don't be discouraged if you do not do well.

It might be helpful to Select Show Row Numbers in the Options menu. This will make it easier for you to understand the moves that score points.

There are 3 types of Random Quizzes.

1. you are presented with a board setup and a roll of the dice. Make your best move.
2. you are asked to accept a double or not.
3. you are asked whether you would double or not.

Just answer the questions that are asked.

Quizzes are worth 1 to 5 points each.

If you do not receive 5 points you will be asked if you want to re-do the quiz. If you select No the answers will be displayed. To clear the answers click once.

When you are finished with the Quizzes select No to another quiz. After No is selected a summary of your performance will be displayed. After you are finished viewing the summary click to clear the summary.

Click on the message line to have a summary of your session displayed. After you are finished viewing the summary click to clear the summary.

On the bottom board frame(Information area) your average skill level for all of the quizzes will be displayed.
