Meier's Regmarks

XTensions for use with QuarkXPress™

Purpose

This software does only one thing: it appends the username and the path of the document at the registration marks.

Requirements

MacOS 7.6 or higher.
QuarkXPress™ for PPC 4.03 or higher.

Installation

Drag the XTensions in the XTensions folder of QuarkXPress™.

Using

There is no user interface. The XTensions start to work when you check "Registration" in the print dialog. It is really that simple!

Limitations

The path will only be shown if it is not too long (less than 200 chars)
