hanks for Trying Effects Pack #2

Thank you for installing Effects Pack #2. We appreciate you taking the time to try our product, and we hope you enjoy using these Quicktime effects for improving your movies, or just making them look cool.

What is Effects Pack #2?

Effects Pack #2 is a set of 10 video effects you can apply to your Quicktime video clips using any application which support Quicktime effects, including Movie Player Pro, Quicktime Player Pro, iMovie, and Adobe Premiere. It includes professional quality effects found in high end video editing applications, such as Gamma correction, Median filtering, and the Polar filter, as well as fun effects like Psycho Spin and Jittery TV.

What does it cost?

Effects Pack #2 costs $30 (US). You can use it free of charge for up to 45 days. After 45 days of use, you must pay to continue using the effects. Each time you run an application which makes use of the effects, you will be reminded how long you have been using them.

How do I pay?

Paying for Effects Pack #2 is simple. You can purchase them on the World Wide Web using your credit card by going to our secure ordering page at <http://www.buena.com/register.html>. From there you can purchase any of our products. You can also pay by email, fax, phone, or postal mail using the Register application which came with the Effects Pack as described below.
