Program Switcher

What it is

Getting tired of mousing up to the Application menu to switch between programs? Program Switcher lets you switch between running programs via a simple keystroke.

What you need

System 7 or later.

Installation summary

Open the SOFTWARE SAMPLER folder on the CD-ROM. Open the Program Switcher folder.

Choose either the PPC Program Switcher control panel (if you have a Power Mac) or the 68K Program Switcher control panel (if you don't have a Power Mac). Drag the icon onto your System Folder icon. Click OK. Restart your Mac.

Launch a couple programs and try pressing Option-Tab!

The manual

Program Switcher's user guide is a SimpleText document inside the Program Switcher folder.

Notes and credits

Program Switcher is shareware by Michael F. Kamprath. It costs $10.
