Our World Wide Web pages contain news and information about all Semicolon Software products. The latest versions of all of our products (including The Tilery) are available for download there.

If you can't access the World Wide Web, you may send a blank floppy and a self-addressed, stamped mailer to the postal address above. We will fill your disk with the latest versions of our freeware and shareware products, including The Tilery, and return it to you. Ask for the "Semicolon Sampler" and please ask for the products you are especially interested in.

Please be sure to include disk, mailer, return address, and sufficient postage.

We reserve the right not to answer any requests which do not include these items. We are happy to offer this service free of charge, but we cannot afford to give away disks, mailers, and postage.
