What is included on PhotoLib™ CDs

PhotoLib™ Volume CDs

To start the PhotoLib™ self-running screen presentation please double-click on "START HERE!".

The folder "Documentation" contains the "PhotoLib™ User Manual", Order information and other documentation. The folder "Deutsch" contains the German version of the documentation. Double-click a document to read it. With the "Print" in   "File" menu you can output the document to your printer.

The PhotoLib™ Volume CD contains over 4000 PhotoLib™ full-color photographs in medium resolution in the folder "IMAGES" and the subfolders.

For image database search we provide you with the PhotoLib™ Vol. Catalog for use with Aldus Fetch Browser. Some CDs contain the catalog of additional PhotoLib™ Volumes. Tis allows you to view all PhotoLib™ images. Some PhotoLib™ Volumes contain thousands of additional images in the "More Photos" catalog. These images can be ordered on CDs from Kagema .

There is a "Utilities" folder containing QuickTime™ 1.6, Picture Decompress, CD-ROM software and a PhotoShop plug-in. You should copy the Aldus Fetch Browser   and   Picture Decompress (from the "Utilities" folder) to your hard disk.

The folder "Demos" contains demo and trial versions of popular software. The folder "High-resolution Sample" contains an example of a PhotoLib™ high-resolution image. In the folder "Sample Manipulated Images" you find two different design backgrounds which have been manipulated in Aldus Photoshop. Please use the Fetch "Sample Manipulations" catalog to view the original images and the various manipulations.

PhotoLib™ Special Theme CDs

* this information does not apply to order number PL-PD1 to PL-PD6!

The folder "Documentation" contains the "PhotoLib™ User Manual", Order information and other documentation. The folder "Deutsch" contains the German version of the documentation. Double-click a document to read it. With the "Print" in "File" menu you can output the document to your printer.

A PhotoLib™ Special Theme CD contains over 400 PhotoLib™ full-color photographs in high resolution in the folder "2920x1940 Images" and in medium resolution in the folder "730x485 Images".

For image database search we provide you with a PhotoLib™ catalog for use with the Aldus Fetch Browser. The program Aldus Fetch Browser itself is not included on the Special Theme CD and has to be copied from another PhotoLib™ CD such as a PhotoLib™Volume or PhotoLib™GO!

There is a "Utilities" folder containing QuickTime™ 1.6, Picture Decompress, CD-ROM software and a PhotoShop plug-in. You should copy the Aldus Fetch Browser and Picture Decompress (from the "Utilities" folder) to your hard disk.

Some CDs contain the catalog of PhotoLib™ Volumes for viewing all PhotoLib™ images. Some CDs contain thousands of additional images in the "More Photos" catalog. These images can be ordered on CDs from Kagema .
