

Welcome to Movie Cleaner Lite 1.2!

Movie Cleaner Lite is a demonstration version of the award-winning compression utility Movie Cleaner Pro. It is designed to give you a complete overview of Pro's features while allowing you to perform useful work. Movie Cleaner is a QuickTime utility that optimizes and compresses your movies for distribution on CD-ROM or the Web.

Movie Cleaner Lite is "reg-ware" - it's free, but you must register to use it. Don't worry - registration is quick and easy. Just go to <http://www.terran-int.com>, or click on the graphic below for a form you can fill out and fax or email to us.

his electronic manual is the Movie Cleaner Pro version. You will not have full access to many of the features described in this manual. Movie Cleaner Lite allows you to use the "Easy Settings." You can view but not modify the "Advanced Settings."

If you regularly work with compressed video, we highly recommend you purchase Movie Cleaner Pro. It has drag & drop batch processing, adaptive noise reduction, IMA audio compression, de-interlacing, and much more! Drop by our web site for more information.

Movie Cleaner Pro was awarded the QuickTime Hot Pick (May 1996), earned a five mouse rating from MacUser Magazine (June 1996), and called "indispensable" by Interactivity Magazine (April 1996). MacWorld Magazine said "No compression utility is easier to use or provides better results than Movie Cleaner Pro" (August 1996).

We hope you find Movie Cleaner Lite useful and informative. Happy compressing!

The Terran Team
