Movie Cleaner Pro 1.2

User Manual

Welcome to Movie Cleaner Pro!

Congratulations on purchasing the most powerful and easy-to-use QuickTime compression utility available. Movie Cleaner Pro offers a unique combination of innovative features designed to make your movie compression tasks easy and efficient, such as drag and drop batch processing, suspend & resume compression, and an integrated expert system.

We've added several new features with version 1.2 to give you even better movie processing capabilities. These features include: automated IMA audio compression, higher quality audio resampling, more cropping options, higher quality video scaling, adaptive video noise reduction, gamma adjustment, deinterlacing, and much more. See the "What's New in 1.2" electronic file on the program disk for a complete list of the new features.

We hope you find using Movie Cleaner an enjoyable experience.
Happy compressing!

Comments and Suggestions...

We encourage you to contact us with any suggestions or comments. We are constantly working to improve Movie Cleaner and your feedback is invaluable to us. Please email us from our web site at <http://www.Terran-Int.com>, or e-mail Info@Terran-Int.com

Our web site also has several useful resources such as Multimedia Tips and Tricks, a chart of

acceptable Data-Rates for QuickTime movies on various platforms, a cross platform README you can include with your multimedia products, and more! Check it out at <http://www.Terran-Int.com>.

Happy compressing!

About this manual

To use this manual, simply select the chapter you would like to view from the "Contents" menu. You may also use the "Table of Contents" (command K) to view the chapter titles - double click to go directly to the specified chapter. You can also use the "Find" command in the File menu to look for specific words.

You may print this manual using the "Print" command - you may specify which chapters you would like printed.
