

Add/Strip™ (A/S) allows you to manipulate TEXT documents in a number of ways. A/S is Shareware, which means that you should pay for it if you use it. I believe this a useful program that will quickly prove its worth. I hope you feel the same. Please don't rip me off.

Register your copy for \$25 (U.S.). Site licenses, allowing for unlimited copies at a single location, are \$100. Registering users (who include their name and address) receive a disk with the latest version, printed documentation (55+ pages), and may use future versions at no additional cost.

CompuServe or ZiffNet users can register online quickly and easily! From either, GO CIS:SWREG. The Registration ID for Add/Strip is #5730; the site license version is #5731. Since the registration fee is charged to your CompuServe account, this is a convenient way for foreign A/S users to register without the hassle of currency conversion.

If you choose to not register your copy, AT LEAST send comments, suggestions, and/or bug reports. Be sure to let me know which version you're using if you don't use the printed registration form. I can be reached at:

Jon Wind
2374 Hillwood Drive
Maplewood, MN 55119

Or at the following electronic address:

CompuServe:
70167,3444 or jwind

Internet:
70167.3444@compuserve.com or jwind@compuserve.com

- Unmodified, non-registered versions may be freely distributed provided they're accompanied by all files contained in the original archive.
- No animals were harmed in the making of this software.
