ABOUT BOB OS

BOB OS is the ultimate artificial intelligence natural language conversation program for Windows! What is artificial intelligence, you might ask? It is computers showing some form of logical reasoning. In this case you type something to the computer and the computer types back. You can have a conversation with a computer! BOB OS will entertain both children and adults. Bob Os is also full of great graphics. Most artificial intelligence programs cost about \$50 or more, and most aren't that smart, until now. Bob OS will also SPEAK through your sound card if you have Monolog. The registered version will be able to LEARN! This is the THIRD and best version of BOB OS.

BOB OS FEATURES:

- o Ability to learn
- o Conversation maker
- o Face that shows how BOB OS feels
- o SAVE and OPEN people
- o DEMO BOB
- o Sentence generator
- o Win Speech support (download from <http://users.aol.com/wholeware/>)

ABOUT BOB'S ABILITY TO LEARN: (REGISTERED VERSION ONLY)

Bob has the ability to learn from the user. If you find that Bob's response

to your sentence is rather dumb or he recommended you to teach him about your sentence you can click TEACH BOB (make sure that LEARNING ABILITY is selected first) You then can tell Bob what his response is supposed to be. Example:

You want to teach Bob what to say for the Sentence:

What is the capital of the US?

You TELL Bob to say:

Uhh, Washington, D.C.

You also must tell Bob if this is a sentence or phrase. Sometimes it is really a sentence but you should tell Bob it is a phrase. Here's why:

if you say the above example was a phrase Bob will also respond the response you taught him for:

Blahlkjdlkj What is the capital of the US, BOB?

If you make a mistake teaching Bob don't worry, just click TEACH BOB and then click EDIT BOB'S KNOWLEDGE. You can click NEXT and PREVIOUS to go through all the things you taught BOB. You can change it by simply clicking in the text box you want to change and change it. Or you can delete a whole entry if you think its useless or making Bob dumb. If for some reason you want to delete the whole file you can.

ABOUT BOB OS:

All you have to do is type in a sentence in the text box and BOB OS will respond in his own window.

ABOUT BOB'S FACE:

If say something to make BOB feel mad, sad, or happy BOB will change his face expression. BOB also moves his eyes

About SAVE and OPEN people: (REGISTERED VERSION ONLY)

When you finish talking to BOB, BOB can SAVE you in his memory. When you OPEN yourself again BOB will remember what who you are and what kind of person you are.

ABOUT DEMO BOB: (REGISTERED VERSION ONLY)

Demo BOB is when BOB talks to himself. First BOB picks a sentence from his SENTENCE GENERATOR and then a different BOB (BOBA) responds. You can watch their conversation.

ABOUT SENTENCE GENERATOR: (REGISTERED VERSION ONLY)

Sometimes BOB will want to talk about something else. He will ask you some questions or tell you something. Instead of you always trying to think of something to say to him he will think of something to say to you.

Also if you register Bob Os will be much smarter. He will have an extra 1000 sentences of knowledge!

Note: For help on how to use these functions run BOB and click help.

BOB OS'S WWW SITE

You can visit Bob's WWW site at <http://users.aol.com/bobosai/>

If you come across a technical problem, have a question, comment or suggestions please tell me.
