Welcome

Welcome to PGC InstallConstruct

InstallConstruct - Package Files for Delivery and Installation PGC InstallConstruct uses a user friendly expanding wizard system to make creating Windows 3.1, 95, 98, and NT Setup Wizard, Installer, and Uninstaller easy, using intuitive step-by-step procedures. Unlike other Installer programs, PGC InstallConstruct does not require programming background; neither does it require you to learn any application specific language.

Important! Please read the Software License Agreement before using this software. For Ordering Information, Tech Support, Dealer Inquiry, or other information, please select the corresponding topics.

The Evaluation Version of PGC InstallConstruct can be downloaded from the InstallConstruct web site:

Additional File Utility Software from Pacific Gold Coast:

TurboSFX – ***Create Self-extractors with Ease and Style*** TurboSFX allows you to package your data and program files in a variety of ways.   You can make 16 and 32 bit Zip, self-extracting executable (SFX), multi-volume self-extracting CABinet (CAB), and Installer files, ready to be self-decompressed, run, and installed. You can easily package your programs and contents for streamlined delivery across local and wide-area networks, or over the Intranet or Internet that requires minimal or no effort for the recipients to use your files.
