*** Misc. Issues ***

--- Open non-standard Gif 89a files.

Microsoft GIF Animator conforms to the Gif89a file format specification. There may be gif 89a files out there that do not conform to this standard specification. As a result some files may not be readable by this application.

--- Microsoft GIF Animator is a stand alone utility

Although Microsoft GIF Animator has been designed as a useful utility to enhance Microsoft Image Composer and Microsoft Front Page, Microsoft GIF Animator is a separate applications and is not supported by these or other Microsoft products.

Thank you for using Microsoft GIF Animator
