Eric Ilasenko Photography Presents

PET PERSONALITY SCREEN SAVERS!!

Pet Personality Screen Savers are an exciting line of software created by professional pet photographer, Eric Ilasenko. Eric regularly shoots for leading pet publications such is BIRD TALK, BIRDS USA, and PET DEALER NEWS. His work is also seen in many pet calendars and pet related books as well.

Each retail package contains the complete Slide Show Screen Saver program, and an image disk featuring 20 full color pet photos. Using the included installation file, Pet personality Screen Savers become your normal screen saver program, and will turn your screen into a pet lovers paradise, with images changing from one to another. You may fully customize the program features, including how long to display images, which images to display, and what special effects to use when changing. In addition, your Background Wallpaper will display whichever pet image you choose in the background, and change it as often as you wish.

Since introducing the first titles of TROPICAL PARROT SCREEN SAVERS in April of 1996, we have been very pleased with customer response. Many people have called or sent e-mail thanking us for the products, and saying how much they really enjoy watching the charming pet images on their home or work computer screens. In fact, one lady even told us that her boss had threatened to make her take it off her computer if he caught her staring at the computer screen saver again, instead of working. . . .<g>

These products have been featured in many popular magazines including BIRD TALK, BIRDS USA, PET BIRD REPORT, CATS MAGAZINE, CAT FANCY, PET AGE, PET DEALER NEWS, and others.

[MAY CUSTOMERS PRINT OR USE ANY OF THE IMAGES FROM THE SCREEN SAVERS?](#)

In a word, NO. All images are fully copyrighted by Eric Ilasenko Photography 1996 / 1997 All Rights Reserved. The software is licensed to customers for use as a personal computer screen saver program only. No part, or portion of the program may be copied, printed, or transmitted electronically. We sell photos to publishers around the world, so allowing free reproduction would jeopardize our earning a living from our work. This is very important---these are NOT "CLIP ART" disks to be used as a source of computer art. Photos are for screen saver use only, and may not be used in any other way. Images are all fully protected by U.S. copyright.
