Options

Window delay time - This option is very important. On slower computer or on screen with more windows in background or while you browse the Internet with your browser, this delay time must be higher than usually because other windows need a time to repaint his window after you moved working window over windows in back.

BG Color - Background color - if check box was checked, when you selected part of the current image for copying, erasing or moving current image will be unchanged and if check box was unchecked current selected part of the image will be filled with the specified palette color in the edit box.

View-create info message box - if check box was checked every time after image was created will be displayed Message box which explain new created image informations.

View-color map button - if button was enabled you can view and select "BG color" and "GIF transparent color" of the current image.

GIF image options - there you can set a options for a GIF transparent image. Clicking on the COLOR-MAP button you can exactly select a transparent color for the current image or type by yourself in edit box.

My other programs on <http://www.Yildun.com> are:

THE KORAN

This program is like a holy muslim book "The Koran" but this is a software with search engine, 9 languages, underlining text, 3d animations, sound, jumping on the specific Surah's i.e.

Download The Koran NOW at <http://www.yildun.com>. It is FREE.

LOGAN'S FIGHT

beautiful action adventure game (shareware - \$19 US).

Hunt a aliens like a Logan-army specialist.

This game are really good.

Try it, download shareware at <http://www.yildun.com>.

SAM PRO PAINT- Paint program

will be available at June 29. 1999. This is wonderfull and easy paint program which have everything what have other popular paint programs and more. This program like all my programs are very easy to use and there are first class. With SamProPaint you can paint not only with mouse then with keyboard too, what is very usefull if you want that your picture look professional. By the way all pictures in Logan's fight game I was paint with keyboard.

Don't forget June 29. 1999. when this program will be available.

Troubleshooting

If you have any problem with this program or any suggestion about Wscanner program please email me to samir@yildun.com and I will answer to you in 24 hours. Some of your comments, suggestions and troubles will be displayed in next version of Windows scanner paint program.
